| | *Hanatomoe Sugi Barrel yamahai junma*<br>Rice: Ginnosato and regional rice from Nara, 70% Polishing rate | 0.5 dl / 11<br>7.2 dl / 120 |

*Sake is a rice wine from Japan. The term Sake is often used for rice wine of any origin.*

*In terms of production, rice wines are actually beers, as the starch for alcoholic fermentation needs to be first unlocked to sugar. The alcohol content of sake is higher than that of wine from grapes.*

| Reis: Nihonbare, 70% Polishing rate | 5.0 dl / 120 |

*Sake is offered as an aperitif, during the meal and also as a digestif.*
*In addition, it is part of sauces and marinades of Japanese cuisine.*

*Sake contains 15% or more by volume of alcohol and is served hot or cold.*
*Hot sake is especially popular in the cold season.*
*It is pictorially called "put a hot stone on the stomach".*
*High-quality sake will be exclusively served cool.*

## Edition Sommelier organic fruit juice CHF

Based on natural cultivation, these fruit juices follow a gentle processing. The juice is highly aromatic and shows a perfect balance between acidity, bitterness and fruit sweetness. Eventually, a rich -non-alcoholic- accompaniment results for an elegant flavour experience.

Austria

Styria

WELL Kronprinz Rudolf, Obsthof Retter 2019 8 / 1dl

Malus domestica KP 56 / 7.5 dl

This apple has a tender and very fine flesh. It is an older type and hits the tastebuds with a unique acid structure, yet it is full bodied on the palate and elegant. The nosing promises apple and a fine aroma of citrus.

WILD Quitte, Obsthof Retter 2019 12 / 1dl

Cydonia oblonga 85 / 7.5dl

The small golden quince fruit are harvested when they reach full ripeness and carefully hand-polished with linen cloth, to remove the fine furr from the fruit skin. Before refinement, the fruit are stored for 2 weeks for maturing so the aroma can develop better.

WILD Kirsche, Obsthof Retter 2019 17 / 1dl

Prumus avium 115 / 7.5dl

The harvest of this wild cherry (Prumus avium) happens significantly later than the cultivated cherry and is done in alpine heights even until end of July. The dark-red fruits are very small and have compared to their sister bigger cherrystones.
